Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Claim Rejections - 35 USC § 112

8. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

9. Claims 1, 3-17, 19-32 and 34-37 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification does not provide clear support for “the second hash function having a lower probability than the first hash function of generating an identical hash for connection identifier information” recited in claims 1 and 12.

10. All dependent claims are rejected to as having the same deficiencies as the claims they depend from.

11. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

12. Claims 1 and 3-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
13. Regarding to claim 1, the limitation “comparing secret information provided within the packet of data with information previously supplied to the remote entity” does not

clear to Examiner what type of information previously supplied to the remote entity and where in the previous limitations that talk about information supplied to the remote entity. Appropriate correction is required.

14. All dependent claims are rejected to as having the same deficiencies as the claims they depend from.

Allowable Subject Matter

15. Claims 1, 3-17, 19-32 and 34-37 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 1st paragraph and 2nd paragraph, set forth in this Office action.
